

Holmen Elevate Flute is an ultra-light, food-safe fluting made from fresh fibres. Engineered for high performance, it enables you to switch from higher grammages to smarter, more efficient corrugated solutions.

HOLMEN ELEVATE

Holmen Elevate Flute

Basis weight +/- 3%	Thickness +/- 3 µm	Moisture +/- 0.5%	*SCTcd Typical values	*SCTmd Typical values	S-test MD	CMT Typical values	Burst Typical values
ISO536	ISO534	ISO287	ISO9895	ISO9895	ISO7763	ISO7263	ISO536
g/m ²	µm	%	kN/m	kN/m	kN/m	N	Kpa
72	126	7.2	1.4	2.55	0.55	100	160
92	161	7.2	1.8	3.50	1.05	155	210

Typical value is defined as a long term (six month) average outcome value of paper production

Updated 2026-03-24

* Indicative value, standard not valid for grammages below 100 g/m²

Environmental certificates: ISO 14001, FSC® C020071, PEFC/05-33-134

Environmental statements: Reach.

Food contact certification: Certified according to BfR XXXVI.

We recommend that you test sensory properties of the final, converted product.
